

Dashboard GUI

BY: T. CLINCH,

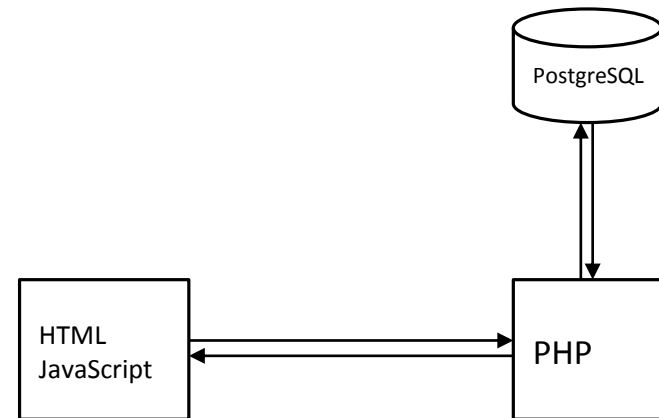

Z. LIU, AND M. VEERARAGHAVAN

Overview

- Uses GridFTP transfer logs
- Covers transfers to and from SLAC
 - Current data sample only covers SLAC
- Web-based program
- Two styles of display
 - Tables for details
 - Charts for overview
- Limit results based on:
 - Time
 - Source
 - Direction

Setup

- Data stored in PostgreSQL database
- Webpage uses JavaScript and AJAX calls
- PHP backend controls database access

Learning

- Unique, practical learning experience
- First experience with PostgreSQL and PHP graphics
- More practice with web design and PHP

Demonstration
